

Section 1. Chemical Product and Company Identification

Product name	Polypropylene	<u>In Case of Emergency</u>	Chemtrec: (800) 424-9300 Total Petrochemicals & Refining USA, Inc.: (800) 322-3462
Supplier	Total Petrochemicals & Refining USA, Inc. P O Box 674411 Houston, TX 77267-4411	<u>Technical Information</u>	For non-emergency product information: email product.stewardship@total.com
Chemical Family	Polymer	MSDS#	PP0011 (EN)
CAS Registry Number	9003-07-0	Validation Date	8/2/2012
		Print Date	8/2/2012
Synonym	Polypropylene Homopolymer		

This MSDS covers all prime homopolymer polypropylene grades including but not limited to:

3###ABC
M3###ABC
GPH##ABC

where # can be any number and ABC may be any combination of letters (the letters may or may not be present), EXCEPT 3287WZ, 3354, 3374HA, 3375HA, 3481Z, 3627R, 3727W, 3727WZ, and 3847MR.

This MSDS also covers experimental grades which are homopolymers including LX1 xx-xx, LX4 xx-xx, and LX5 xx-xx, & EOD xx-xx, and specially compounded samples labeled Polypropylene Nxxxxx and Nxxxxx-x, where x may be any number.

Section 2. Hazards Identification

Emergency Overview	Irritating vapors to respiratory system and eyes may form when polymer is processed at high temperatures. Molten or heated material in skin contact can cause severe burns.
Routes of Entry	FOR HOT MATERIAL: Skin contact, Eye contact, Inhalation.
Potential Acute Health Effects	
	Eyes Dust may cause mechanical irritation to eye. Heated Polymer: Eye contact can cause serious thermal burns. Vapors formed when polymer is heated may be irritating to the eye.
	Skin No known acute effects of this product resulting from skin contact at room temperature. Heated Polymer: skin contact can cause serious thermal burns.
	Inhalation Negligible at room temperature. Nuisance dusts can be irritating to the upper respiratory tract. Irritating vapors may form when the polymer is processed at high temperatures.
	Ingestion No effects are expected for ingestion of small amounts. May be a choking hazard.
Potential Chronic Health Effects	CARCINOGENIC EFFECTS: Polypropylene is not a known carcinogen. Not listed as a carcinogen by OSHA, NTP or IARC.
Medical Conditions Aggravated by Overexposure	There is no known effect from chronic exposure to this product. Repeated or prolonged exposure is not known to aggravate any medical condition.
Overexposure /Signs/ Symptoms	No adverse health effects anticipated from the solid pellet.
See Toxicological Information (Section 11)	

Section 3. Composition and Information on Ingredients

Occupational exposure limits, if available, are listed in Section 8.

Substance Name	CAS #	% by Weight
Polypropylene	9003-07-0	~ 100

Section 4. First Aid Measures

Eye Contact	Rinse with water for a few minutes. Seek medical attention if necessary.
Skin Contact	Polymer: NO known EFFECT on skin contact, rinse with water for few minutes. Heated Polymer: For serious burns from heated polymer, get medical attention. In case of skin contact, immediately immerse in or flush with clean, cold water.
Inhalation	Allow the victim to rest in a well-ventilated area.
Ingestion	No First Aid procedures are needed.

Section 5. Fire Fighting Measures

Flammability of the Product	May be combustible at high temperature.
Auto-ignition Temperature	Not available.
Flash Points	>200°C (>392°F)
Flammable Limits	Not available.
Products of Combustion	Carbon oxides (CO, CO ₂) and soot.
Fire Hazards in Presence of Various Substances	No specific information is available in our database regarding the flammability of this product in presence of various materials.
Explosion Hazards in Presence of Various Substances	Risks of explosion of the product in presence of mechanical impact: Not expected. Risks of explosion of the product in presence of static discharge: Possible. Risk of explosion from dust accumulation of this product is possible. See MSDS section 7 Handling for more information.
Fire Fighting Media and Instructions	SMALL FIRE: Dry chemical extinguisher (ABC or AB). Use water spray or fog. LARGE FIRE: Use water spray or fog. Do not use water jet. May re-ignite itself after fire is extinguished.
Protective Clothing (Fire)	Wear MSHA/NIOSH-approved self-contained breathing apparatus or equivalent and full protective gear.
Special Remarks on Fire Hazards	Fire may produce irritating gases and dense smoke. Flowing material may produce static discharge, igniting dust accumulations.
Special Remarks on Explosion Hazards	Processing or material handling equipment may generate dust of sufficiently small particle size, that when suspended in air may be explosive.

Section 6. Accidental Release Measures

Small Spill and Leak	Pellets on the floor could present a serious slipping problem. Good housekeeping must be maintained at all times to avoid this hazard. Sweep, shovel, or vacuum material into clean containers.
Large Spill and Leak	Use a shovel to put the material into a convenient waste disposal container. Do not allow any potentially contaminated water with pellets to enter any waterway, sewer or drain.

Section 7. Handling and Storage

Handling	<p>Handling of plastic may form nuisance dust. Protect personnel.</p> <p>Pneumatic material handling and processing equipment may generate dust of sufficiently small particle size that, when suspended in air, may be explosive. Dust accumulations should be controlled through a comprehensive dust control program that includes, but is not limited to, source capture, inspection and repair of leaking equipment, routine housekeeping and employee training in hazards. See NFPA 654.</p> <p>Dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material.</p> <p>When handled in bulk quantities, this product and its associated packaging may present a crushing hazard due to the large masses involved, possibly resulting in severe injury or death.</p>
Storage	<p>Keep container dry. Keep container in a cool place. Ground all equipment containing material. Combustible materials should be stored away from extreme heat and away from strong oxidizing agents.</p>

Section 8. Exposure Controls/Personal Protection

Engineering Controls	Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. If user operations generate dust, fumes or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.
Personal Protection	
<i>Eyes</i>	Safety glasses with side shields.
<i>Body</i>	Coveralls.
<i>Respiratory</i>	Ventilation is normally required when handling this product at high temperatures. Wear appropriate respirator when ventilation is inadequate.
<i>Hands</i>	Thermally insulated gloves required when handling hot material.
<i>Feet</i>	Shoes.

Protective Clothing (Pictograms)

Personal Protection in Case of a Large Spill Safety glasses. Gloves.

Product Name	Exposure Limits
Polypropylene	Not established.

Consult local authorities for acceptable exposure limits.

Section 9. Physical and Chemical Properties

Physical State and Appearance	Solid. (Solid pellets.)
Color	Translucent white pellets.
Odor	Odorless.
Molecular Weight	Not available.
Molecular Formula	(C ₃ H ₆) _x
Melting/Freezing Point	120 to 170°C (248 to 338°F)
Specific Gravity	0.91 to 0.97 (Water = 1)
Volatility	Negligible.
Solubility in Water	Insoluble in water.

Section 10. Stability and Reactivity

Stability and Reactivity	The product is stable. Avoid temperatures above 300 degree C (570 F).
Conditions of Instability	No additional remark.
Incompatibility with Various Substances	Reactive or incompatible with strong oxidizing agents.
Hazardous Decomposition Products	Hazardous decomposition products are carbon monoxide, carbon dioxide, dense smoke, and various hydrocarbons.
Hazardous Polymerization	Under normal conditions of storage and use, hazardous polymerization will not occur.

Section 11. Toxicological Information

Toxicity to Animals	Very low toxicity to humans or animals.
Chronic Effects on Humans	CARCINOGENIC EFFECTS: Not listed as a carcinogen by OSHA, NTP or IARC.
Other Toxic Effects on Humans	Not considered to be dangerous to humans.

Section 12. Ecological Information

Ecotoxicity	Avoid release to the environment. This product is not expected to bioaccumulate through food chains in the environment.
Biodegradable/OECD	Not readily biodegradable.
Mobility	Low mobility in soil predicted. This material floats on water.

Section 13. Disposal Considerations

Waste Information	Transfer to an approved disposal area in accordance with federal, state, and local regulations.
Consult your local or regional authorities.	

Section 14. Transport Information (for domestic bulk shipments, non-bulk shipments may differ)

DOT Classification for Bulk Shipments (non bulk shipments may differ)	Not a DOT controlled material (United States).	
Proper Shipping Name/Description	Not applicable.	
UN Number	Not applicable.	
Packing Group	Not applicable.	
Marine Pollutant	Not listed in Appendix B to 49CFR172.101	
Hazardous Substances Reportable Quantity	Not listed in Appendix A to 49CFR172.101	
Special Provisions for Transport	Not applicable.	
TDG Classification	Not controlled under TDG (Canada).	
IMO/IMDG Classification	Not controlled under IMDG.	
ICAO/IATA Classification	Not controlled under IATA.	
USCG Proper Shipping Name	Polypropylene	

Section 15. Regulatory Information

HCS Classification This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

U.S. Federal Regulations TSCA inventory: All components are listed or exempted.

SARA 313

This product contains no chemicals in excess of the applicable de minimis concentration that are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372 (Table 372.65).

SARA 304

No chemicals in this product require reporting under the requirement of 40 CFR 355, Emergency Planning And Notification (SARA extremely hazardous substances listed in Appendix A to Part 355 or CERCLA hazardous substances listed in Table 302.4 of 40 CFR Part 302).

SARA 301/302/303

No chemicals in this product are listed as extremely hazardous substances in 40 CFR 355, Emergency Planning And Notification (Appendix A to Part 355).

SARA 311/312

This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200, and as such does not require reporting under the requirements of 40 CFR 370, Hazardous Chemical Reporting: Community Right-To-Know.

International Regulations

WHMIS (Canada) Not controlled under WHMIS (Canada).

DSCL (EEC) This product is not classified according to EU legislation.

CEPA DSL/NDSL All components are listed or exempted.

Section 16. Other Information

Label requirements Irritating vapors to respiratory system and eyes may form when polymer is processed at high temperatures.
Molten or heated material in skin contact can cause severe burns.

Hazardous Material Information System (U.S.A.)

Health	0
Fire Hazard	1
Reactivity	0
Personal Protection
