

Coansa Snetor

COANSA signs a partnership with Snetor

We are pleased to announce our Joint Venture with SNETOR, the French global trader and distributor of plastics and chemicals since 1981.

This operation signed on July 3, 2023, in San José (Costa Rica), gives birth to COANSA SNETOR and provides for the acquisition up to 51% of the distribution business of Coansa by Snetor.

Such transaction will allow the two companies to extract significant group synergies, drive innovation and growth in the plastic distribution industry in Central America, and more specifically in Costa Rica, Guatemala, and El Salvador.

Alberto Gallegos, President, and shareholder of COANSA, said: *"We are excited to partner with Snetor to deliver exceptional value to our customers. This Joint Venture will enable us to leverage our human resources strengths and to improve our product offerings, increase efficiency, and deliver superior service to our local customers,"*
